

# EYELET PRODUCT SPECIFICATIONS

Eyelet was fabricated from a desire to create a plush dense product for clients seeking a custom coloured carpet. This fine tip definition carpet is produced by using 100% NZ Wool 380/1 tex, which is the best fine wool yarn used in the carpet industry, suited for tufting. The method of tufting enables us to achieve a much heavier weight carpet than traditional 'off the roll' carpets. Our most popular product weight is 2.8 kg/square meter. This beautifully tight tufted product features great wearability, bounce, comfort and sophistication suited to any residential home.

The flexibility of customising the colour is a unique benefit of CRONZ Eyelet carpet choice. We will match any specific colour required for wall-to-wall installation, from one small room to a full house lot carpet. While this finish is used extensively as a carpet option, Eyelet is also a very nice neat, clean finish for rugs. A simple carved border or geometric patterns and stripe designs are achievable as the fine yarn gives a clean, crisp transition between colours.

**PRODUCT TYPE:** Tufted

**COMPOSITION:** 100% NZ Wool 380/1 tex

**COLOUR:** choose 1 colour

Pattern is optional and can have multiple colours

**FINISH:** cut level, shorn

**PILE HEIGHT:** 11-12 mm

**TOTAL HEIGHT:** approx. 15 mm

**TOTAL YARN WEIGHT:** approx. 2.8 kg/m<sup>2</sup>

**BACKING MATERIAL:** Polypropylene, Action back

**ADHESIVE:** Latex

## COLOUR

Custom colour of your choice.

## DISCLAIMER

Dimensions may vary by up to 3% due to the tufting process so please specify the maximum or minimum dimensions when ordering the carpet or rug. For carpet installation, please allow extra 5-10% for fitting tolerance, depending on the room's size and shape.

Please note that variations in colour and texture may occur between batches of yarn and dye baths. All carpets and rugs, irrespective of their colour or finish, are subjected to shading and cut pile carpets may be subject to pile reversal which is not a manufacturing fault, but an inherent characteristic of these flooring surfaces.

## SIZE

Eyelet carpet is manufactured to specific room measurements, or according to a supplied floor plan. Rugs are also available, in plain or patterned Eyelet - in a custom size of your choice.

MOST COMMON RUG SIZES are 2000 x 3000 mm, 2500 x 3500 mm, 3000 x 4000 mm, 2000 mm diameter round, 2500 mm diameter round, 800 x 4500 mm (runner size).

## CARE ADVICE

It is common for every new wool rug to shed fibers so please do not be alarmed. The majority of the shedding will occur in the first few months.

Do not rub fresh stains as rubbing only pushes the stain deeper into the fibers. Make sure to attend to any spills immediately, and blot up liquids with plenty of paper towels. Regular vacuuming is the most efficient way to remove surface dust and prevent build-up of material that could harm the carpet. We recommend cleaning the carpet by professional carpet cleaners every 18 months. Cleaning by hot water extraction (steam cleaning) can produce excellent results provided that it is carried out by a competent operator.

Make sure to rotate rugs regularly to ensure even wear and protect them from prolonged periods of direct sunlight.
