

# ORGANIC FIELDS PRODUCT SPECIFICATIONS

Organic Fields, totally unique to CRONZ, is created using 66 nylon yarn. John, owner of CRONZ, has developed a CNC programme to create loop stitches at varying heights. On rug completion, the product is tip shorn, shaving the higher loops to cut pile areas, creating a unique duo. The name Organic Fields depicts the organic nature of the random pattern that emerges in the final stages of production. 66 nylon is manufactured in the USA and is the finest nylon yarn available for carpet and rug manufacturing. It is more resistant to crushing and matting, heat friction and stain penetration than any previously available nylons. A 100% nylon product is also a good choice for people suffering from allergies. As the nylon is hank-dyed, we have the ability to manufacture small areas in custom colours. You can choose your favourite colour here as we are not restricted to standard colours. In addition, the high lustre of the yarn fashions the dewiest, super glam finish and is a perfect choice for areas in your home looking for opulence and sheen. Organic Fields is recommended as loose lay rugs or wall-to-wall carpet where sheen and low level texture are desired.

**PRODUCT TYPE:** Tufted

**COMPOSITION:** 100% High Lustre 66 Nylon

**COLOUR:** choose 1 colour

**FINISH:** loop, tip shorn

**PILE HEIGHT:** 10-12 mm

**TOTAL HEIGHT:** approx. 13-15 mm

**TOTAL YARN WEIGHT:** approx. 2.6 kg/m<sup>2</sup>

**BACKING MATERIAL:** Polypropylene, Action back

**ADHESIVE:** Latex

**EDGING:** Standard rolled edge & tape (rugs only)

## COLOUR

Custom colour of your choice.

## DISCLAIMER

Dimensions may vary by up to 3% due to the tufting process so please specify the maximum or minimum dimensions when ordering the carpet or rug. For carpet installation, please allow extra 5-10% for fitting tolerance, depending on the room's size and shape.

Please note that variations in colour and texture may occur between batches of yarn and dye baths. All carpets and rugs, irrespective of their colour or finish, are subjected to shading and cut pile carpets may be subject to pile reversal which is not a manufacturing fault, but an inherent characteristic of these flooring surfaces.

## SIZE

Organic Fields rug is made in the custom size of your choice. Organic Fields carpet is manufactured to specific room measurements, or according to a supplied floor plan.

MOST COMMON RUG SIZES are 2000 x 3000 mm, 2500 x 3500 mm, 3000 x 4000 mm, 2000 mm diameter round, 2500 mm diameter round, 800 x 4500 mm (runner size).

## CARE ADVICE

Nylon rugs do not shed, unlike wool rugs. Do not rub fresh stains as rubbing only pushes the stain deeper into the fibers. Make sure to attend to any spills immediately, and blot up liquids with plenty of paper towels. Regular vacuuming is the most efficient way to remove surface dust and prevent build-up of material that could harm the carpet. Make sure you use vacuum setting and not beater bar to prevent creating "fuzz" on your nylon rug or carpet. We also recommend cleaning all the rugs by professional carpet cleaners every 18 months. Make sure to rotate rugs regularly to ensure even wear and protect them from prolonged periods of direct sunlight.
